![CUSTOMCABLE - An Amphenol Company]

Introducing the **NEW**

# Buy.CustomCable.com

## The Most Comprehensive, Functional Cable Assembly Interface in the Industry.

**Increase efficiency and productivity. The Punchout Tool is fully functional on desktops and mobile, perfect for use in the field.**

## Why Use the Punchout Tool?

**Cost Free.** The interface, virtual outsourcing of IT, software, engineering and related resources are yours to use, free of charge.

**Choose Open or Secure Access.** The Punchout Tool is a scalable interface for supply chain managers, engineers, project managers, technicians, and contractors, with access administered by Custom Cable.
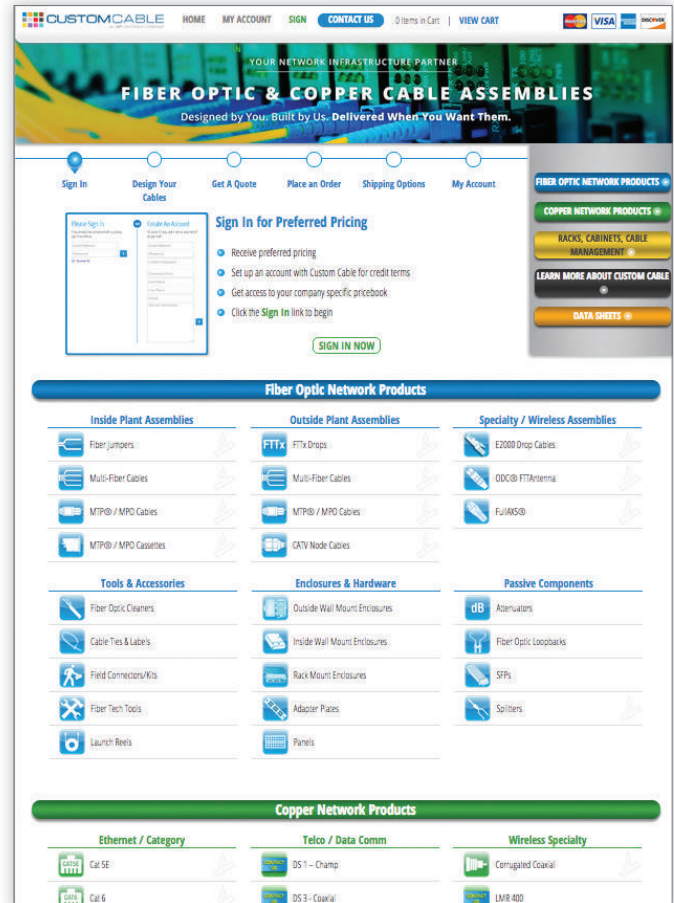

**Your Numbers, Your Price.** Configured assemblies are cross-referenced to provide your part numbers and contract price.

**Get Your Specs.** Easily access your cable assembly technical specifications at both the component and assembly levels.

**Minimized Quoting.** Contract unit pricing tables eliminate the process for custom, non-contracted configured items.

**Download Engineering Drawings.** The Punchout Tool makes it easy to download detailed engineering drawings for project use and close out documents.

**Get Real Time Order Info.** See scheduled ship dates, package tracking and order expedite features in real time.

## Creating an Account is Easy.

Simply sign in and create your account. Once your company name auto-populates, you're pre-approved with preferred tiered pricing and ready to go.
